

# **Geoinformatics**

Moinul Islam

9/16/2022

# Table of contents

Preface	3
1 Introduction to GIS	4
2 GIS for Economics (New information provision)	5
3 GIS for Economics	6
4 GIS for biodiversity management	7
5 GIS for natural resource management	8
6 Spatial data collection, storage and management	9
7 Spatial data visualization	10
8 Spatial data process	11
9 Spatial data create	12
10 Spatial data analyze	13
11 Social applications of GIS	14
12 GIS to solving real world problem (Nankai trough hazard map 1)	15
13 GIS to solving real world problem (Nankai trough hazard map 1)	16
14 GIS to solving real world problem (Ex: $CO_2$ )emission	17
15 GIS to solving real world problems (Ex: Biodiversity)	18
References	19

# Preface

# **1 Introduction to GIS**

## **2 GIS for Economics (New information provision)**

## **3 GIS for Economics**

## **4 GIS for biodiversity management**

## **5 GIS for natural resource management**

## **6 Spatial data collection, storage and management**

## **7 Spatial data visualization**

## **8 Spatial data process**

## **9 Spatial data create**

## 10 Spatial data analyze

## **11 Social applications of GIS**

## **12 GIS to solving real world problem (Nankai trough hazard map 1)**

## **13 GIS to solving real world problem (Nankai trough hazard map 1)**

## 14 GIS to solving real world problem (Ex: $CO_2$ )emission

## **15 GIS to solving real world problems (Ex: Biodiversity)**
